- Business & Media
- Computer Science
- Engg & Tech
- Natural & Health Sciences
- Life & Earth Sciences
- Psychology
- Commerce

Why Choose Us?

- Qualified lecturers
- Modern facilities
- Scholarships available
- Internship opportunities

Ph.D. by Research
(via Distance Learning)

Ordinary courses or by A.P.E.L
(Accreditation Prior Experiential Learning)

PHD BY RESEARCH: STRATEGIC THESIS & DEVELOPMENT

In the evolving world of research, professional expertise deserves recognition. Angel's International University offers distance learning PhD programs across various specializations, allowing students to conduct advanced research in their chosen fields.

A Doctor of Philosophy from AIU, whether in science or humanities, validates a graduate's deep knowledge and mastery. The degree is earned by successfully defending a final doctoral thesis, a process designed to strengthen cultural backgrounds and foster new academic contributions.

Eligibility & Requirements:

- **Criteria:** Applicants must hold a Master's degree (or equivalent) and be at least **25 years** old.
- **The Thesis:** Candidates must submit and defend a final thesis of at least 90–100 pages, which is then evaluated by the AIU academic committee. Relevant previous publications may also be considered.
- **Duration:** The program has no minimum duration and a maximum of 24 months.
- **Admissions:** With no fixed intakes or deadlines, students may apply at any time of the year.

PHD BY RESEARCH FINAL TOTAL COST \$2500 - TWO THOUSAND FIVE HUNDRED DOLLAR

The tuition at Angel's International University is fully inclusive, covering continuous student support, thesis supervision, evaluation, and the issuance and shipment of your diploma and transcript. To ensure the highest level of security and global portability, all degrees are authenticated via Blockchain technology.

As a private, international distance learning institution, AIU operates independently and does not offer scholarships, discounts, or external financial aid. However, we provide flexible payment options to suit your needs:

- Lump Sum: A 10% discount is applied for those who choose to pay in full.
- Installments: Fees can be split into consecutive, interest-free monthly payments.
- Deadlines: Following successful enrollment, the initial payment is due within 10 days of receiving your Enrollment Certificate.

Unlike traditional campus-based programs, the PhD by Research at AIU involves no coursework, classes, or lectures. Instead, it is centered on autonomous, independent theoretical research within your specific academic field, culminating in the submission of your final doctoral thesis.

As a global distance learning institution, Angel's International University facilitates thesis defenses via email once the final manuscript has been approved.

Students may select one of the following two formats to present and defend their research:

PhD Defense Options

1

- **Written Defense (via Email):** A 3–5 page academic paper where the student details their core arguments and demonstrates how they successfully met their research objectives.

2

- **Oral Defense (via Email):** A 15–20 minute audio or video recording. In this presentation, the student debates their findings and illustrates the achievement of their academic goals.

Traditional PhD programs are campus-based and academically intensive, typically spanning four to six years. These programs require two years of advanced coursework and exams, followed by several years of research, teaching assistantships, and the development of approximately nine individual papers alongside a final thesis. The final GPA is determined by both these papers and the thesis.

In contrast, the PhD by Research at Angel's International University is a streamlined professional development program designed for career advancement, consulting, and CV enhancement.

Key Differences at AIU:

- **Structure:** Our program involves no mandatory coursework, exams, lectures, or additional papers. It is a simple, flexible structure that requires no on-campus or synchronized online attendance.
- **Focus:** The degree is based entirely on independent, autonomous theoretical research within a specific academic field, culminating in a final thesis.
- **Duration:** Completion is dictated by the student's own pace, with a maximum timeframe of 24 months.
- **Transcript:** The final transcript reflects the evaluation results of the doctoral thesis rather than individual course grades.

Professional vs. Academic Paths

While traditional PhDs are tailored for careers in state sectors, government, or university teaching, a Professional PhD from AIU is highly regarded by international companies, NGOs, foundations, and the third sector. It is specifically designed for high-level professionals looking to validate their expertise and elevate their standing in the global job market.

ACCREDITATION AND PROFESSIONAL RECOGNITION

At Angel's International University, we maintain a transparent approach to accreditation. Our validation process is non-governmental and discretionary, a common standard for international distance education institutions. Like many prestigious private universities, we seek accreditation through specialized professional and regional associations.

Currently, there are no universal, worldwide accreditation standards for distance learning. Each accrediting body performs an independent, comprehensive assessment and grants accreditation based on its specific rigorous criteria.

The Utility of Your Degree

An Angel's International University degree is a powerful tool for career advancement, providing access to a wide range of professional opportunities and global roles. However, it is important to note that certain regulated professions or government-specific positions may require diplomas from state-accredited institutions. We encourage all prospective students to verify the specific requirements for their intended career path and country before enrolling.

Expertise Over Credentials

In the modern professional landscape, reputation is built on tangible skills and competency. While a degree serves as a formal representation of your achievement, employers today place the highest value on your actual knowledge and expertise. For most multinational companies, NGOs, and private employers, completing a rigorous distance learning program demonstrates the level of discipline and self-management they desire in top-tier candidates.

ACCREDITATION EXCELLENCE: ANGEL INTERNATIONAL UNIVERSITY IS ACCREDITED BY THE IACU (International Association of Colleges & Universities)

Angel's International University is globally accredited by the **International Association of Colleges & Universities (IACU)**. This accreditation was granted following a rigorous review and validation of our study programs to ensure they meet high international standards.

The IACU evaluates several key benchmarks, including:

- Curriculum Quality: Assessment of program depth and academic rigor.
- Professional Relevance: Alignment of degree titles with global career development.
- Institutional Integrity: Verification of faculty expertise and operational transparency.

By meeting these stringent criteria, Angel International University ensures its distance education programs provide a high-quality, professional credential respected by private and international bodies worldwide.
