MASTER'S BY RESEARCH: STRATEGIC THESIS & DEVELOPMENT

Angel's International University is a premier global institution dedicated to providing world-class distance learning. With 7 specialized faculties and nearly 200 distinct study programs, our curriculum is meticulously designed to meet the evolving needs of adult learners. We empower our students to secure leadership roles in industry and trade, advance as independent professionals, or establish themselves as key corporate stakeholders.

At the core of Angel's International University is a clear, forward-thinking vision. We are driven by the belief that research, innovation, and professional competence are the essential pillars of every successful life and career journey.

Through our sophisticated A.P.E.L. (Accreditation of Prior Experiential Learning) validation system, we move beyond traditional academic boundaries. This process allows us to evaluate each student's unique profile, transforming their real-world experience into academic credit. By doing so, we accurately outline their professional skills and significantly foster their global career opportunities.

In a modern job market that operates on an unprecedented scale, we understand that a degree alone is not enough. This awareness reinforces our commitment to ensuring that every study project at Angel International is supported by precise, actionable strategies tailored to the success of our students.

THE STRATEGIC VISION OF AIU

The primary objective of Angel's International University is to fortify the professional and academic profiles of adult learners committed to advancing their careers, securing high-level roles, or launching innovative new projects.

Our student body is largely composed of established managers and qualified professionals. Our sophisticated distance learning system is specifically designed for this demographic, allowing candidates to earn a prestigious qualification without sacrificing their current professional responsibilities or precious time with their families.

We hold deep respect for the self-awareness and self-determination of our adult students. By engaging in a rigorous program that eliminates the need for physical campus attendance, our students demonstrate exceptional discipline, strengthen their self-esteem, and prove their capacity for independent achievement.

To support these diverse ambitions, Angel's International University has established seven specialized faculties and nearly 200 study programs. This extensive academic range ensures that every student can discover a personalized pathway to both professional success and personal fulfillment.

Capital Market Theories
Classical Management Theory
Accounting Theory
Theory of Entrepreneurship
Basic Economic Concepts

MASTER OF PHILOSOPHY (M.PHIL.): ADVANCED RESEARCH EXCELLENCE

The Master of Philosophy (M.Phil.) at Angel's International University is an elite postgraduate research degree. It is designed for students who wish to conduct independent academic inquiries, culminating in a comprehensive final dissertation of at least 90 pages.

The Path to Academic Mastery

To earn an M.Phil. from Angel's International University, candidates must complete 40 credits beyond their Bachelor's or previous Master's degree. We specifically welcome applications from dedicated professionals who possess significant field experience and a drive for scholarly achievement.

As a high-level academic specialization, the M.Phil. serves as a rigorous bridge that allows for direct access to PhD programs. Throughout the process, candidates synthesize their professional expertise, precise disciplinary knowledge, and academic research skills into a single, profound body of work.

Admission Requirements

In keeping with our focus on professional maturity and advanced expertise, candidates must be at least 23 years of age to access the M.Phil. program. This ensures that our researchers bring a wealth of practical perspective to their academic investigations.

PROGRAM TUITION & SPECIAL ENROLLMENT

At Angel's International University, we are committed to making high-quality, global education accessible to working professionals worldwide. We offer a transparent fee structure designed to provide maximum value for your professional investment.

- **Standard Tuition: \$6,000**
- **Special Discount Cost: \$2,300 (Total Cost)**

Enrollment Procedures: Your Path to Angel's International University

To apply for your chosen program, please complete the Application Form, ensuring you indicate your specific academic discipline or major. Once finished, email the completed form to us at [Email Address], along with a comprehensive CV, a clear copy of your ID or passport, and a passport-sized photograph.

ACCREDITATION AND PROFESSIONAL RECOGNITION

At Angel's International University, we maintain a transparent approach to accreditation. Our validation process is non-governmental and discretionary, a common standard for international distance education institutions. Like many prestigious private universities, we seek accreditation through specialized professional and regional associations.

Currently, there are no universal, worldwide accreditation standards for distance learning. Each accrediting body performs an independent, comprehensive assessment and grants accreditation based on its specific rigorous criteria.

The Utility of Your Degree

An Angel's International University degree is a powerful tool for career advancement, providing access to a wide range of professional opportunities and global roles. However, it is important to note that certain regulated professions or government-specific positions may require diplomas from state-accredited institutions. We encourage all prospective students to verify the specific requirements for their intended career path and country before enrolling.

Expertise Over Credentials

In the modern professional landscape, reputation is built on tangible skills and competency. While a degree serves as a formal representation of your achievement, employers today place the highest value on your actual knowledge and expertise. For most multinational companies, NGOs, and private employers, completing a rigorous distance learning program demonstrates the level of discipline and self-management they desire in top-tier candidates.

ACCREDITATION EXCELLENCE: ANGEL INTERNATIONAL UNIVERSITY IS ACCREDITED BY THE IACU (International Association of Colleges & Universities)

Angel's International University is globally accredited by the **International Association of Colleges & Universities (IACU)**. This accreditation was granted following a rigorous review and validation of our study programs to ensure they meet high international standards.

The IACU evaluates several key benchmarks, including:

- Curriculum Quality: Assessment of program depth and academic rigor.
- Professional Relevance: Alignment of degree titles with global career development.
- Institutional Integrity: Verification of faculty expertise and operational transparency.

By meeting these stringent criteria, Angel International University ensures its distance education programs provide a high-quality, professional credential respected by private and international bodies worldwide.

Master of Philosophy Certification Sample

ANGEL'S
INTERNATIONAL UNIVERSITY
BE THE BEST VERSION OF YOURSELF

Angel's International University

This is to certify that, upon the recommendation of
